ADD COUPON

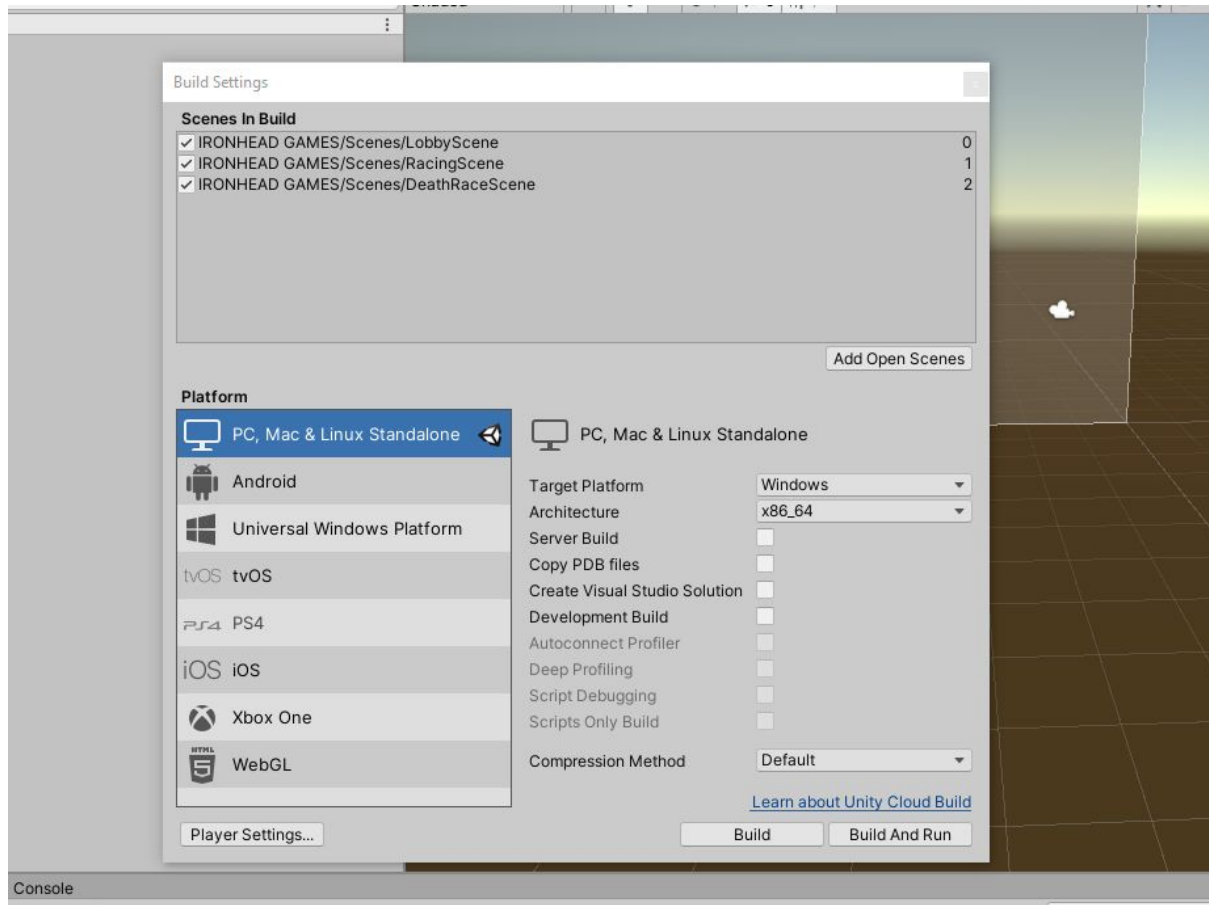

13. Copy appID and Paste it here and click on Setup.

15. Open LobbyScene and Import TextMeshPro.

16. Open File> Build Settings. Add the following scenes to Scenes in Build.

18. Open LobbyScene and hit the play! Then, enjoy it!

****Also, this asset targets the Standalone Build! If you want to test with a different platform, you must implement Platform-specific input codes such as adding mobile joystick for Android builds.**
